

# RANGE SPECIAL USE REQUEST

I have been fully instructed in the WCW Range Safety policy and procedures and understand them. I am fully knowledgeable in firearm safety and the safe operation of all the firearms I will be using. I understand that I am personally responsible for the safe operation of this range facility and will immediately take corrective action whenever necessary to insure that everyone on the facility is following all the rules and safety procedures. I understand that display of the current membership card is mandatory and I will ask anyone without a proper card and special use sticker to leave the facility. **I understand that I may not do anything other than that which the Committee has given me specific permission to do.** Shooting birds and wildlife is strictly forbidden and will result in loss of all privileges.

**TARGETS** - I understand that I may use only the standard targets available through the club, that all targets must be taken down at the end of the shooting period, and that my target frame and shooting position will be left clean. I understand that all targets must be hung directly downrange from the shooting position and I will not shoot at anything other than my target.

**BLACKPOWDER** – I understand that using blackpowder requires additional knowledge and procedures due to the explosive nature of the powder.

**CMP/POSITION SHOOTING** - I understand that position shooting is done off the forward raised shooting platform and, for this reason, position shooting is generally confined to the west shooting bay. All shooters in each shooting bay on Range #1 will have their muzzles at the same distance from the 100 yard target line. There may be, and usually is, differences between the bays, which is taken care of by the bullet proof bay dividers.

**CHRONO** - I understand that I will only use a chronograph when I can do it without disturbing other shooters on the line. I will insure that all rounds shot through the chronograph sky screens strike the proper 100 yard impact area and will not damage any target frames.

**HUNTER PISTOL** - I understand that all shooting will be from on the benches in the east shooting bay and that normal pistol calibers (under 1800 fps) will be confined to 100 yard shooting.

**MEMBER HOURS** - I understand that no noise will be made before 9:00 AM. I understand that every person who has permission to be on the property during members hours will have a gate key in their possession and I will not admit others in to the facility. I understand that Open shooting terminates with the closing of the Range Office.

I request the following (circle each privilege separately):

## RIFLE Range

200-300 yds   Chrono   BlackPowder   HunterPistol   Off-hand Rifle   MemberHours   Gate Key

CMP/Position (Requires NRA classification)

---

## PISTOL Range (Requires Qualification – attach qualification card)

Qualified: caliber \_\_\_\_\_ position \_\_\_\_\_ date \_\_\_\_\_

Chrono   BlackPowder   MemberHours   Gate Key

I understand that the approval of this request is not a right of membership, but a privilege granted, and I will do all that is expected to retain this privilege, including supervising the ranges and helping on work parties. I also understand that the Rangemaster on duty or a Club Official may restrict any or all these permissions at any time.
